User Manual

Recipe App User Manual

Welcome to the Recipe App! This user manual will guide you through the process of using the app to capture and view recipes. The app allows you to enter recipe names and their corresponding ingredients. Let's get started!

1. Home Screen

Home Screen:

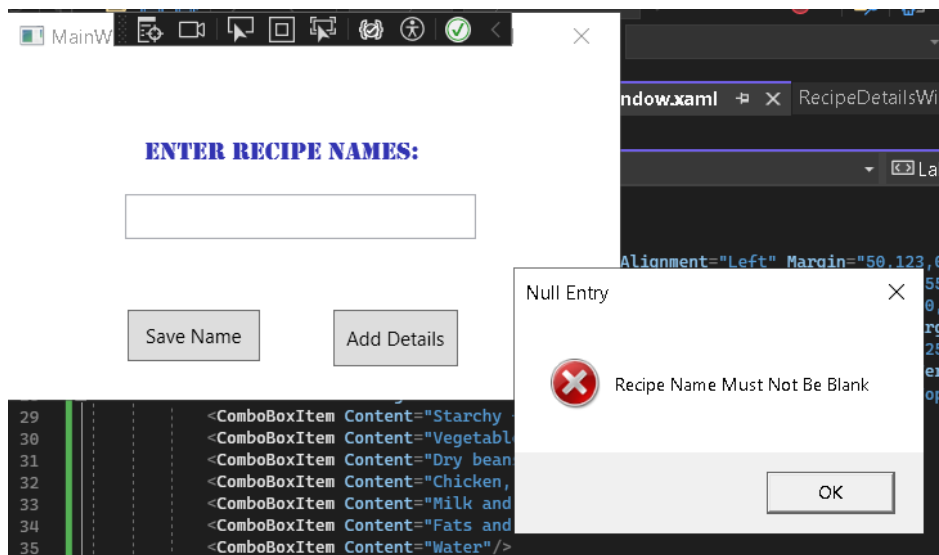

A screenshot of a web browser window displaying the Recipe App's home screen. The browser's address bar shows 'MainW'. The page has a dark header with several icons: a document, a video camera, a cursor, a square, a magnifying glass, a person, and a green checkmark. The main content area has a white background. At the top, it says 'ENTER RECIPE NAMES:' in bold blue text. Below this is a large, empty text input box with a blue border. At the bottom, there are two grey buttons: 'Save Name' on the left and 'Add Details' on the right. The browser window has a close button (X) in the top right corner.

The home screen is where you can enter recipe names. Follow these steps:

Enter the recipe name in the text box Below "Enter Recipe Names."

-Click the "Save Name" button to save the recipe name.

If the recipe name is left blank, an error message will be displayed.

Recipe names are sorted in alphabetical order automatically.

After saving the recipe name, the text box will be cleared, and you can enter another recipe name.

Once you have entered all the recipe names, click the "Add Details" button to add ingredients and view recipes.

2. Recipe Details Screen

Recipe Details Screen

The screenshot shows a window titled "RecipeDetailsWindow". Inside, there's a form with the following elements:

- Select Recipe Name**: A dropdown menu.
- Ingredient Name**: A text input field.
- Ingredient Quantity**: A text input field.
- Ingredient Unit of Measurement**: A text input field.
- Ingredient Calories**: A text input field.
- Food Group**: A dropdown menu.
- Steps**: A large empty rectangular box on the right side.
- Buttons**: "Save Ingredient" and "View Recipes" at the bottom.

The recipe details screen allows you to add ingredients for a selected recipe and view the recipe's details. Here's how to use this screen:

Select the recipe name from the "Select Recipe Name" dropdown list.

This screenshot shows the "RecipeDetailsWindow" with the "Select Recipe Name" dropdown menu open, displaying a list of recipe names. The other input fields and buttons are visible but not the focus of this specific step.

Enter the ingredient details in the corresponding fields:

Ingredient Name: Enter the name of the ingredient.

Ingredient Quantity: Enter the quantity of the ingredient.

Ingredient Calories: Enter the calorie count of the ingredient.

Ingredient Unit of Measurement: Enter the unit of measurement for the ingredient.

Food Group: Select the food group from the dropdown list.

After capturing all ingredients Then add steps

Steps: Enter the steps or instructions for the ingredient.
